

Arnold NextG realizes the Safety-by-Wire® technology of tomorrow with pioneers of the drive-by-wire industry - whether on land, in water or in the air. We offer the worldwide unique and multi-redundant central control unit NX NextMotion, which enables a fail-safe and individual implementation. As an independent developer, incubator and system supplier, Arnold NextG takes care of planning and implementation - from vision to road approval.

**We are looking for**

## Mechatronics technician (m/f/d)

### Your tasks

*Development &  
Production*

- You work on a wide variety of projects and take over body work up to complex electronic integrations
- You work closely with our developers and realize the implementation of our ideas
- You can quickly adapt to new tasks and find creative solutions
- You are a skilled craftsman and are familiar with the technical requirements of modern vehicle generations
- Your expertise contributes significantly to our high manufacturing quality and project successes

### Your Profile

Apart from a completed apprenticeship in the field of automotive mechatronics, electronics, electrics or a comparable qualification, you are enthusiastic about technology and love to find independent solutions. You have good knowledge in the field of electrical engineering or mechatronics, have experience or interest in familiarizing yourself with the field of automotive electronics and have strong PC skills? Then we should urgently talk to each other!

### We offer

A permanent job in a crisis-proof industry and the freedom to solve tricky technical problems as part of one of the most exciting projects of our time. Together with a team of world-class developers and talented newcomers, you will actively help shape the future of autonomous driving today. State-of-the-art workstations, short decision-making paths and high project dynamics ensure a varied yet goal-oriented work environment. You work on all kinds of vehicle types, from hypercars to heavy commercial vehicles. Our clientele is international, and exciting assignments abroad are possible if you are interested. You will find a package of flexible working hours, up-to-date management structures, attractive remuneration and, if you wish, a job bike.
