

Arnold NextG realizes the Safety-by-Wire® technology of tomorrow with pioneers of the drive-by-wire industry - whether on land, in water or in the air. We offer the worldwide unique and multi-redundant central control unit NX NextMotion, which enables a fail-safe and individual implementation. As an independent developer, incubator and system supplier, Arnold NextG takes care of planning and implementation - from vision to road approval.

## We are looking for

# System electronics technician / Electrician (m/f/d)

## Your tasks

### *Research & Development*

- You take over the electrical and mechanical construction, the wiring and documentation of our systems
- You support our development engineers in the planning, implementation and commissioning of customer-specific projects.
- You complete test set-ups and cable harnesses and take care of testing
- You maintain and update the stocks in the inventory control system
- You are responsible for service and complaint management
- You install and set up application software

## Your Profile

Apart from a completed apprenticeship as an electronics technician / electrician / electrical installer (m/f/d) or a comparable qualification, you are enthusiastic about technology and love to find unconventional solutions. You have good knowledge in the field of electrical engineering, have experience or are interested in familiarising yourself with the field of automotive electronics and have excellent PC skills? Then we should urgently talk to each other!

## We offer

The freedom to solve tricky technical problems as part of one of the most exciting projects of our time. Together with a team of world-class developers and talented newcomers, you will actively help to shape the future of autonomous driving today. State-of-the-art workplaces, short decision-making processes and a high level of project dynamics ensure a varied yet goal-oriented development environment. With us, you will find a package of flexible working hours, modern management structures, attractive remuneration, work clothes adapted to the professional field and, if desired, a job bike.
